

Kavin M. Govindarajan

 kmgovind |  kmgovind |  kmgovind@umich.edu |  984-528-0487

EDUCATION

University of Michigan

Aug. 2024 - Present

PhD Robotics, MS Robotics

Awards/Honors NSF Graduate Research Fellow, 2024 ASME JDSMC Reviewer of the Year

Relevant Coursework Data-Driven Controls, Autonomous Vehicles, Probability & Random Processes, Game Theory, Multi-Robot Systems

North Carolina State University

Aug. 2020 - May 2024

BS Aerospace Engineering, BS Applied Mathematics

Awards/Honors Park Scholar, Dean's List (All Semesters)

Relevant Coursework Optimal Controls, Dynamic Systems & Multivariable Controls, Mechatronics, Flight Stability & Controls, Numerical Methods, Finite Element Analysis

SKILLS

<i>Programming/Software</i>	C, C++, MATLAB, Simulink, Java, Python, Julia, Linux (Ubuntu, Raspbian), Git, JIRA, Confluence, Microsoft Office, $\LaTeX$
<i>Computer-Aided Design</i>	Solidworks, Siemens NX, Autodesk Fusion 360, OnShape, GrabCAD, ANSYS

EXPERIENCE

CORE LAB | Undergraduate Research Assistant

Jun 2019 - August 2024

Renewably-Powered Robotics

- Developed persistent planning algorithms for renewably-powered vehicles in spatiotemporally-varying environments
- Conducted field-test campaign to validate planning and control algorithms on a solar-powered autonomous surface vessel
- Designed and built composite control surfaces and electronics modules for an autonomous sailing drone

Technologies/Skills: MATLAB, Simulink, Julia, ROS, Solidworks, Git

DARPA Manta Ray

- Developed and implemented control system software for underwater energy-harvesting kite
- Conducted field-test campaign to validate performance of energy-harvesting kite

Technologies/Skills: C, C++, Python, ROS, Linux (Ubuntu), Git

Liquid Rocketry Lab | CFO & Structures Engineer

Sep 2020 - May 2024

- Managed financial and legal responsibilities for the organization
- Developed dynamic model to derive optimal design parameters and design flight control system
- Designed components for guidance, navigation, and control (GNC) of rocket

Technologies/Skills: MATLAB, Java, Siemens NX, JIRA, Confluence, Git

InspireNC | Director

Jul 2018 - Present

- Managing operations and community impact of the InspireNC non-profit organization
- Organized multiple community development events and skills-training workshops
- Established working relationships with corporate partners to fund and expand community impact

PROJECTS

Computer-Vision Aided Robotics

[Link to More Info](#)

Developed computer vision systems for autonomous target identification and control of a ball launching mechanism on FRC 6908's 2020 Robot: Cookie Monster.

Technologies/Skills: Java, Python, Computer Vision

ACTIVITIES

FIRST Robotics Competition Mentor

Mentoring FRC 6908: Infuzed. Served as team lead during high school. Currently focused on guiding students with the engineering design process and implementation of higher-level autonomous control systems for a competition robot.
